Internship

Machine Learning Intern

April 2024 - June 2024

Interns Elite | E-Cell IIT Hyderabad

- Completed an internship in Machine Learning, demonstrating strong dedication and problem-solving skills.
- Gained hands-on experience in developing and optimizing machine learning models including Linear Regression, Decision Trees, Random Forest, Support Vector Machines (SVM), and K-Means Clustering.
- Applied various ML techniques to real-world datasets, improving model accuracy and performance.
- Acquired practical knowledge of industry-standard tools and frameworks for machine learning applications.

Projects

Fake News Detection Chrome Extension | JavaScript, AI, Chrome APIs

Dec 2024 – Jan 2025

- Developed a Chrome extension that uses AI to detect fake news and analyze sentiment in online articles.
- Implemented text selection and right-click detection to check the credibility of news with instant visual feedback.
- Integrated AI-powered APIs to classify news as real (green) or fake (red) and analyze sentiment.
- Utilized Chrome Extension APIs, JavaScript, and Manifest v3 for seamless browser integration.
- GitHub Repository Link: <https://github.com/Murali-dharan-sanapala12216103/Fake-News-Extension>

News Article Recommendations | Python, Machine Learning, NLP

Aug 2024 – Sep 2024

- Developed a machine learning-based recommendation system to suggest relevant news articles based on user preferences.
- Implemented NLP techniques to analyze article content and measure similarity.
- Implemented NLP techniques (TF-IDF, Word2Vec) to analyze article content and measure similarity.

House Price Prediction | Python, Regression, Classification

Mar 2024 – Apr 2024

- Built a machine learning model to predict house prices based on user-defined preferences such as area and square footage.
- Utilized regression and classification algorithms for accurate price estimation.
- Preprocessed data using Pandas and NumPy and visualized insights with Matplotlib.
- Enhanced model performance through data preprocessing and hyperparameter tuning.

Certificates

Artificial Intelligence

Coursera

Nov 2024

Deep Learning

Coursera

Aug 2024

Mastering Data Structures and Algorithms Using C++

Udemy

Sep 2023

Technical Skills

Languages: C++, Java, Python

Technologies/Frameworks: GitHub, MySQL, TensorFlow, Flask, Scikit-learn, Hugging face

Soft Skills: Problem-Solving Skills, Team Player, Adaptability

Education

Lovely Professional University Punjab

2022 - Present

Computer Science and Engineering

Jalandhar, Punjab

Narayana Junior College

2020 - 2022

12th with Key Subjects: Physics, Chemistry, Mathematics

Palasa, Andhra Pradesh

Sri Kakatiya High School

2019 - 2020

Matriculation

Visakhapatnam, Andhra Pradesh
